Laconic philosophical encyclopedia. LaPhiEnia (LPE) Oleg Starchen 2018-08-11 (I am not very well know English, so, I apologies for mistakes.) This encyclopedia is about the love of wisdom, and it is laconic, which is defined by its name. This "encyclopedia" is such not in the academic sense, but in the Hegel sense, because the great philosopher Georg Hegel created the original work "Encyclopedia of philosophical Sciences". Therefore, a LAconic PHilosophical ENcyclopedIA, or, for short, i.e., speaking laconically, LaPhiEnia (LPE) is also OrPhiEnia. © Oleg Starchen, 2018

First developed in the early twentieth century as a way of exploiting the flows of globalization to defend liberal internationalism, their appeal is that they function as an alternative to war. This view, however, ignores the dark paradox at their core: designed to prevent war, economic sanctions are modeled on devastating techniques of warfare. Tracing the use of economic sanctions from the blockades of World War I to the policing of colonial empires and the interwar confrontation with fascism, Nicholas Mulder uses extensive archival research in a political, economic, legal, and military history that reveals how a coercive wartime tool was adopted as an instrument of peacekeeping by the League of Nations. This timely study casts an overdue light on why sanctions are widely considered a form of war, and why their unintended consequences are so tremendous.

Studies in Functional Stylistics Jan Chloupek 1993-01-01 The 15 contributions in the present collection can be divided roughly into three groups: (1) Papers directly following up functional stylistics and the theory of language culture, elaborated in the classical period of the Prague Linguistic School. (2) Papers concerning the problems of style in a wider communicative arena. These contributions are closely related to contemporary text linguistics and also deal with problems involving psycholinguistics, sociolinguistics and semiotics. (3) Papers having, at least in some part, a pronounced historiographic character. These contributions reflect the fact that contemporary Czech linguistic research is firmly anchored in the Prague linguistic tradition. Although the authors' frame of reference is mainly Czech and the current language situation in the Czech Republic, the majority of contributions were

intended to have a more general linguistic character and general linguistic validity.

Contemporary Social and Sociological Theory Kenneth Allan 2012-12-04 In the Third Edition of Ken Allan's highly-praised Contemporary Social and Sociological Theory book, sociological theories and theorists are explored using a straightforward approach and conversational, jargon-free language. Filled with examples drawn from everyday life, this edition highlights diversity in contemporary society, exploring theories of race, gender, and sexuality that address some of today's most important social concerns. Through this textbook students will learn to think theoretically and apply to their own lives.

[Walking the Lake District Fells - Keswick](#) Mark Richards 2020-11-24 This guide describes ascents of 30 Lake District fells that can be climbed from Keswick, the Whinlatter Pass, Bassenthwaite, Hesketh Newmarket, Mungrisdale and Threlkeld. The giants of the region Skiddaw and Blencathra need little introduction, their myriad routes attracting many a visitor and promising fantastic far-reaching views. The summits to the north, however, are less frequented, offering probably the closest experience to wilderness walking the Lakes has to offer, whereas to the west, the Whinlatter group present a sylvan alternative. Unlike other guidebooks which describe a single or limited number of routes to a particular destination, the aim of the Walking the Lake District Fells series is to offer all the options. These are presented as numbered sections which can be combined to create infinite possibilities - from simple ascents to longer ridge routes. You'll find the classics and popular routes alongside less traditional alternatives perfect for the wandering spirit. The series gives you both the freedom to devise your own routes and the information to make informed decisions, thanks to the clear

descriptions of the routes, terrain, hazards, interesting features and safe descent paths should the weather close in. Also included are a handful of classic ridge routes for longer fell days. Mark Richards' inimitable text is complemented by HARVEY mapping and the author's own beautiful sketch topos and panoramas. Perfect for keen hillwalkers and peak-baggers alike and ideal both for pre-planning and use on the hill, Walking the Lake District Fells is the new incarnation of the Fellranger series, which sees the volumes updated and trimmed to a more practical size. These true connoisseurs' guides are sure to inspire you to get out and explore the beautiful fells of Lakeland. For those collecting fell summits, a 'Fellrangers' hill list register can be found on the Long Distance Walkers Association website.

Commuter Spouses Danielle Lindemann 2019-03-15 What can we learn from looking at married partners who live apart? In *Commuter Spouses*, Danielle Lindemann explores how couples cope when they live apart to meet the demands of their dual professional careers. Based on the personal stories of almost one-hundred commuter spouses, Lindemann shows how these atypical relationships embody (and sometimes disrupt!) gendered constructions of marriage in the United States. These narratives of couples who physically separate to maintain their professional lives reveal the ways in which traditional dynamics within a marriage are highlighted even as they are turned on their heads.

Commuter Spouses follows the journeys of these couples as they adapt to change and shed light on the durability of some cultural ideals, all while working to maintain intimacy in a non-normative relationship.

Lindemann suggests that everything we know about marriage, and relationships in general, promotes the idea that couples are focusing more and more on their individual and personal betterment and less on their marriage. Commuter spouses, she argues, might be expected to exemplify in an extreme manner that kind of self-prioritization. Yet, as this book details, commuter spouses actually maintain a strong commitment to their marriage. These partners illustrate the stickiness of traditional marriage ideals while simultaneously subverting expectations.

Everyday Post-Socialism Jeremy Morris 2016-09-01 This book offers a rich ethnographic account of blue-collar workers' everyday life in a central Russian industrial town coping with simultaneous decline and the arrival of transnational corporations. *Everyday Post-Socialism* demonstrates how people manage to remain satisfied, despite the crisis and relative poverty they faced after the fall of socialist projects and the social trends associated with neoliberal transformation. Morris shows the 'other life' in today's Russia which is not present in mainstream academic discourse or even in the media in Russia itself. This book offers co-presence and a direct understanding of how the local community lives a life which is not only bearable, but also preferable and attractive when framed in the categories of 'habitability', commitment and engagement, and seen in the light of alternative ideas of worth and specific values. Topics covered include working-class identity, informal economy, gender relations and transnational corporations.

A Handbook of Anglo-Saxon Studies Jacqueline Stodnick 2012-08-08 Reflecting the profound impact of critical theory on the study of the

humanities, this collection of original essays examines the texts and artifacts of the Anglo-Saxon period through key theoretical terms such as 'ethnicity' and 'gender'. Explores the interplay between critical theory and Anglo-Saxon studies. Theoretical framework will appeal to specialist scholars as well as those new to the field. Includes an afterword on the value of the dialogue between Anglo-Saxon studies and critical theory.

Sociology and the New Materialism Kianoush Bachmann 2017-06
New materialism has emerged over the past 20 years as an approach concerned fundamentally with the material workings of power, but focused firmly upon social production rather than social construction. Applied to empirical research radically extends traditional materialist analysis beyond traditional concerns with structural and macro level social phenomena, addressing issues of how desires, feelings and meanings also contribute to social production. New Materialism is currently having a profound effect across disciplines. Rooted in post-Marxist thinking, but spreading out on the flat ontology of networks, objects and bodies, New Materialism is an interdisciplinary discussion on the properties of matter in terms of agency, ethical responsibility and immanence. Along with post-humanism, the Anthropocene, nonrepresentational theories and post-Deleuzian thought, New Materialism asks us to reconsider the nature of the human and the non-human, the difference between actual and virtual, the emergence of politics and law in the face of ubiquitous materiality and, above all, the new responsibilities that come with it all. *Sociology and the New Materialism: Theory, Research, Action* discusses issues of research design and methods in new materialist social inquiry, an approach that is attracting increasing interest across the social sciences as an alternative to either realist or constructionist ontologies. New materialism de-privileges human agency, focusing instead upon how assemblages of the animate and inanimate together produce the world, with fundamental implications for social inquiry methodology and methods. Conversely, new materialism takes matter as a lively and active participant in social life, problematises core hierarchical binaries such as human/nonhuman, living/non-living, and idealism/materialism, and expands the remit of

what constitutes social life. Questioning these binaries renders humans as part of a flatter ontology than we might normally think. This book also considers how core social concerns of responsibility and sustainability might be transformed when we pay attention to the forces and capacities of materialities.

Matsushita Leadership John P. Kotter 2012-12-11 He was one of the most inspirational role models of all time. Thrown into poverty at age four, Konosuke Matsushita (Mat-SOSH-ta) struggled with the early deaths of family members, an apprenticeship which demanded sixteen-hour days at age nine, all the problems associated with starting a business with neither money nor connections, the death of his only son, the Great Depression, the horror of World War II in Japan, and more. Yet John P. Kotter shows in this fascinating and instructive book how, instead of being ground down by these hardships, Matsushita grew to be a fabulously successful entrepreneur and business leader, the founder of Japan's General Electric: the \$65 billion a year Matsushita Electric Corporation. His accomplishments as a leader, author, educator, philanthropist, and management innovator are astonishing, and outshine even Soichiro Honda, J.C. Penney, Sam Walton, and Henry Ford. In this immensely readable book, Kotter relates how Matsushita created a large business, invented management practices that are increasingly being used today, helped lead his country's economic miracle after World War II wrote dozens of books in his latter years, founded a graduate school of leadership, created Japan's version of a Nobel Prize, and gave away hundreds of millions to good causes. The Matsushita story expands our notion of the possible, even for a sickly youngster who did not have the benefit of a privileged background, education, good looks, or a charismatic presence. It tells us much about leadership, entrepreneurship, a drive for lifelong learning, and their roots. It

demonstrates the power of a longterm outlook, idealistic goals, and humility in the face of great success. Matsushita Leadership is both a biography and a set of lessons for careers and corporations in the 21st century. An inspirational story and a business primer, the implications are powerful, for organizations and for living a meaningful life.

Across Cultural Borders Eckhardt Fuchs 2002 This innovative work offers the first comprehensive transcultural history of historiography. The contributors transcend a Eurocentric approach not only in terms of the individual historiographies they assess, but also in the methodologies they use for comparative analysis. Moving beyond the traditional national focus of historiography, the book offers a genuinely comparative consideration of the commonalities and differences in writing history. Distinguishing among distinct cultural identities, the contributors consider the ways and means of intellectual transfers and assess the strength of local historiographical traditions as they are challenged from outside. The essays explore the question of the utility and the limits of conceptions of modernism that apply Western theories of development to non-Western cultures. Warning against the dominant tendency in recent historiographies of non-Western societies to define these predominantly in relation to Western thought, the authors show the extent to which indigenous traditions have been overlooked. The key question is how the triad of industrialization, modernization, and the historicization process, which was decisive in the development of modern academic historiography, also is valid beyond Europe. Illustrating just how deeply suffused history writing is with European models, the book offers a broad theoretical platform for exploring the value and necessity of a world historiography beyond Eurocentrism.

The New Global History Bruce Mazlish 2006-09-27 From a distinguished author in the field, *The New Global History* is a critical inquiry into the historical process of globalization, which is seen as a distinctly twentieth century phenomenon with its roots in the age of expansion of the early modern world. Cutting across disciplinary boundaries, *The New Global History* offers a fresh, overarching view of the process of globalization that is always empirically based and discusses the most important

themes, such as policy, trade, cultural imperialism and warfare. Bruce Mazlish argues that globalization is not something that the West has imposed upon the rest of the world, but the result of the interplay of many factors across continents. Students of history, politics and international studies, will all find this a valuable resource in the pursuit of their studies.

Shaping Taxpayers Lotta Björklund Larsen 2017-02-01 How do you make taxpayers comply? This ethnography offers a vivid, yet nuanced account of knowledge making at one of Sweden's most esteemed bureaucracies – the Swedish Tax Agency. In its aim to collect taxes and minimize tax faults, the Agency mediates the application of tax law to ensure compliance and maintain legitimacy in society. This volume follows one risk assessment project's passage through the Agency, from its inception, through the research phase, in discussions with management to its final abandonment. With its fiscal anthropological approach, *Shaping Taxpayers* reveals how diverse knowledge claims – legal, economic, cultural – compete to shape taxpayer behaviour.

Quilt Blocks and Quilts from Your Favorite Fabrics Kate Perri 2008-11-01 *Easy Quilts from Your Closet* is a guide to making the most of the fabrics you love. Quilting is a great way to recycle T-shirts, blue jeans, neckties, pj's , and even prom dresses—to give old favorites a quick and cozy makeover. These fifteen projects teach three of the most basic quilting techniques: patchwork piecing, foundation piecing, and applique. Readers learn how to “deconstruct” their favorite garments and then reconstruct the pieces to form the small individual blocks that are

stitched together to form a quilt. Block by block, they'll learn how to make quilt tops and "sandwiches" and then decoratively stitch their surfaces by machine—with straight lines or freeform shapes. They'll also learn how to assemble blocks to make three full sampler quilts, adding sashing, binding, and designer labels.

Sew and Go Totes Kristine Poor 2009 With Kristine Poor's 9 innovative designs for intermediate stitchers, favorite textiles are transformed into original quilted bags. Groceries, portfolios, gym clothes, books, diapers - no matter what needs to be toted, a quilted bag can handle the job. With one of these fabric bags, shoppers now can just say "no" to paper and plastic bags. This book has a pocket-sized accessory bag, an oversized duffel, a feminine handbag, a backpack, and lots of totes that are ready to go anywhere. All designs are quilted, and some feature piecwork.

Global Practice in World History Patrick Manning 2009-01-30 This volume presents the thinking and the activities of some of the most serious and successful practitioners of world history. The 15 contributors are experienced historians from ten countries dispersed across five continents. Their essays confirm the existence of an emerging worldwide discourse on the past of our planet, but they also reveal the distinctive conditions and local innovations of global historians in different parts of the world. They give particular attention to the emergence of formal institutions for study of world history. University departments, research institutions, international conferences, and the leaders of museums are now demonstrably involved in full-scale study of the human past at a

global level. Work in these institutions will surely reveal new patterns, dispel some old beliefs, provoke debates, and demonstrate the need for still more research. The book begins with the official report of the 2006 World History Research Agenda Symposium. This unusual conference, held in Boston, launched the formal discussion of priorities in world history research. In seven further chapters, the authors describe university-level study of the world at undergraduate and especially graduate levels, conveying some remarkable advances in conceptualization of the global past and explaining the curricula they have implemented for directing students in world historical research. The final four chapters turn to the other institutions that support the development of advanced studies in world history: journals, museums, and research institutes. Here the authors document the organizational innovations that have brought discussion of world history issues to wider audiences. This is the second volume in the series on research in world history, produced by the World History Network, Inc. The previous volume, *World History: Global and Local Interactions* (Markus Wiener, 2005) displayed the accomplishments of Ph.D. students and graduates whose research focuses on topics in world history.
