

Kursy/c Persidskiy

Eventually, you will unconditionally discover a extra experience and realization by spending more cash. yet when? get you take on that you require to acquire those all needs with having significantly cash? Why dont you try to acquire something basic in the beginning? Thats something that will lead you to comprehend even more nearly the globe, experience, some places, later than history, amusement, and a lot more?

It is your utterly own period to law reviewing habit. accompanied by guides you could enjoy now is **kursy/c persidskiy** below.

The Soviet Army Department of the Army 2019-07-19 The Soviet Army: Operations and Tactics FM 100-2-1 This field manual is part of FM series 100-2, The Soviet Army. The other volumes are FM 100-2-2, The Soviet Army: Specialized Warfare and Rear Area Support, and FM 100-2-3, The Soviet Army: Troops, Organization and Equipment. These manuals cannot stand alone, but should be used interchangeably. These field manuals serve as the definitive source of unclassified information on Soviet ground forces and their interaction with other services in combined arms warfare. These manuals represent the most current unclassified information and they will be updated periodically. More information would become available in the event of war or national emergency. Why buy a book you can download for free? We print the paperback book so you don't have to. First you gotta find a good clean (legible) copy and make sure it's the latest version (not always easy). Some documents found on the web are missing some pages or the image quality is so poor, they are difficult to read. If you find a good copy, you could print it using a network printer you share with 100 other people (typically its either out of paper or toner). If it's just a 10-page document, no problem, but if it's 250-pages, you will need to punch 3 holes in all those pages and put it in a 3-ring binder. Takes at least an hour. It's much more cost-effective to just order the bound paperback from Amazon.com This book includes original commentary which is copyright material. Note that government documents are in the public domain. We print these paperbacks as a service so you don't have to. The books are compact, tightly-bound paperback, full-size (8 1/2 by 11 inches), with large text and glossy covers. 4th Watch Publishing Co. is a HUBZONE SDVOSB. https://usgovpub.com **Current Trends in Psychology** Wayne Dennis 1947 "During World War II every psychologist had a job to do. His contributions sometimes were made in uniform and sometimes in whatever vestless and cuffless suit was available. Whether in uniform or not, the psychologist's work was related to the war effort or to the essential war functions of the nation. When the war ended, the psychologist found that his responsibilities were no less urgent. For the future his prospects seem to be even heavier burdens and a neverending path. Since the years 1940 and 1941, the psychologist has shown himself capable of performing duties not previously allotted to him, or, for that matter, not previously delegated to anyone else. There has grown up a better understanding of the potential functions of the psychologist, an understanding which creates new assignments for him. Instead of a reluctance to intrust to him problems in human behavior, there is today an insistence that he attempt problems with which perhaps he is not yet prepared to deal. Clearly these past few years have been an era of great change in psychology, as they have in many other fields. It is unfortunate that during these dramatic and eventful times, there were few professional meetings and little time or opportunity for the discussion of professional problems. With the return of the possibility of holding professional meetings, it occurred to us that a symposium on current trends in psychology would be most timely and desirable. With the cordial support of the administrative officials of the University, we were able to hold at the University of Pittsburgh, on March 5 and 6, 1947, a conference on current trends in psychology. The present volume contains the papers delivered then. In planning our program we attempted to include in it discussions of recent advances and of probable future developments in several fields of psychology. There necessarily was a limit to the number of fields which could be included. In each chosen area of psychology we selected a speaker who is now active in that field"--Preface. (PsycINFO Database Record (c) 2012 APA, all rights reserved). **America Goes Backward** Stanley Hoffmann 2004 "Wrong assumptions, immoderate and confused ends, served by a mixture of counterproductive, inadequate, mismanaged, and, at times, scandalous means": Stanley Hoffmann's verdict on the US invasion of Iraq carries an uneasy echo of his view of the US failure in Vietnam. Though it is not Vietnam, for Hoffmann the Iraq war is still a sign that America has gone in the wrong direction. In this book, he describes the many ways in which the Bush administration, particularly in its unilateralist determination to make war on Saddam Hussein, has undertaken a "wrecking operation" on post?World War II schemes of international cooperation, and he suggests a process by which democracies might reach agreement on when to collectively intervene in aid of nations suffering under oppressive regimes. Hoffmann goes on to analyze how the US risks being trapped in Iraq, and offers his ideas on the most effective strategies for both withdrawing US forces and helping the country achieve democracy and stability under multilateral supervision. "Too often," he finds, "this administration has given, to many Americans and even more to foreigners, the impression that it is drunk with power...." If we are to combat terrorism effectively, we should strive not for an arrogant American empire but for "a return to reality, to good sense, and to morality."

The U.S. Army in the Iraq War Joel Rayburn 2019 The Iraq War has been the costliest U.S. conflict since the Vietnam War. To date, few official studies have been conducted to review what happened, why it happened, and what lessons should be drawn. The U.S. Army in the Iraq War is the Army's initial operational level analysis of this conflict, written in narrative format, with assessments and lessons embedded throughout the work. This study reviews the conflict from a Landpower perspective and includes the contributions of coalition allies, the U.S. Marine Corps, and special operations forces. Presented principally from the point of view of the commanders in Baghdad, the narrative examines the interaction of the operational and strategic levels, as well as the creation of theater level strategy and its implementation at the tactical level. Volume 1 begins in the truce tent at Safwan Airfield in southern Iraq at the end of Operation DESERT STORM and briefly examines actions by U.S. and Iraqi forces during the interwar years. The narrative continues by examining the road to war, the initially successful invasion, and the rise of Iraqi insurgent groups before exploring the country's slide toward civil war. This volume concludes with a review of the decision by the George W. Bush administration to "surge" additional forces to Iraq, placing the conduct of the "surge" and its aftermath in the second volume.

Imperialism Without Colonies Harry Magdoff 2003-04-09 In the decades after 1945, as colonial possessions became independent states, it was widely believed that imperialism as a historical phenomenon was coming to an end. The six essays collected in this volume demonstrate that a new form of imperialism was, in fact, taking shape—an imperialism defined not by colonial rule but by the global capitalist market. From the outset, the dominant power in this imperialism without colonies was the United States. Magdoff's essays explain how this imperialism works, why it generates ever greater inequality, repression, and militarism, and the essential role it plays in the development of U.S. capitalism. His concluding essay presciently points out the limits of any attempted reform of the global economy which does not directly challenge the framework of capitalism. Written in the 1960s and 70s, Magdoff's essays constituted a major contribution to Marxist theory and provided a model of rigorous argument in which theory is constantly checked against the economic reality. They provide an indispensable guide to the basic forces at work in the global politics of the twenty-first century.

The Basic Principles of Operational Art and Tactics Vasilii Efimovich Savkin 1974

Russia and the Arms Trade Ian Anthony 1998 In Russia and the Arms Trade a group of Russian authors were commissioned to describe and assess the arms trade policies and practices of Russia under new domestic and international conditions. The authors, drawn from the government, industry, and academic communities, offer a wide-ranging assessment of the political, military, economic, and industrial implications of Russian arms transfers together with specific case studies of important bilateral armstransfer relationships.

Phytochemistry of Medicinal Plants John T. Arason 2013-11-11 Phytochemicals from medicinal plants are receiving ever greater attention in the scientific literature, in medicine, and in the world economy in general. For example, the global value of plant-derived pharmaceuticals will reach \$500 billion in the year 2000 in the OECD countries. In the developing countries, over-the-counter remedies and "ethical phytoomedicines," which are standardized toxicologically and clinically defined crude drugs, are seen as a promising low cost alternatives in primary health care. The field also has benefited greatly in recent years from the interaction of the study of traditional ethnobotanical knowledge and the application of modern phytochemical analysis and biological activity studies to medicinal plants. The papers on this topic assembled in the present volume were presented at the annual meeting of the Phytochemical Society of North America, held in Mexico City, August 15-19, 1994. This meeting location was chosen at the time of entry of Mexico into the North American Free Trade Agreement as another way to celebrate the closer ties between Mexico, the United States, and Canada. The meeting site was the historic Calinda Geneve Hotel in Mexico City, a most appropriate site to host a group of phytochemists, since it was the address of Russel Marker. Marker lived at the hotel, and his famous papers on steroidal saponins from *Dioscorea composita*, which launched the birth control pill, bear the address of the hotel.

G. Zhukov, Marshal of the Soviet Union Georgii Konstantinovich Zhukov 1985

The european higher education area in 2012: Bologna process implantation report Eurydice 2012 The report describes the state of implementation of the Bologna Process in 2012 from various perspectives and with data ranging from 2010 to 2011 as well as with earlier trends data for some statistical figures. --Ed.

World Military Expenditures and Arms Transfers 1983

Humanism, Culture, and Language in the Near East Georg Krotkoff 1997-01-01 Essays by 33 colleagues, friends, and students of the Johns Hopkins University Arabist and linguist. Topics include (1) humanism, culture, and literature; (2) Arabic; (3) Aramaic; and (4) Afroasiatic.

City of Black Gold Arbella Bet-Shlimon 2019 Kirkuk is Iraq's most multilingual city, for millennia home to a diverse population. It was also where, in 1927, a foreign company first struck oil in Iraq. Over the following decades, Kirkuk shaped the heart of Iraq's booming petroleum industry. City of Black Gold tells a story of oil, urbanization, and colonialism in Kirkuk--and how these factors shaped the identities of Kirkuk's citizens, forming the foundation of an ethnic conflict. Arbella Bet-Shlimon reconstructs the twentieth-century history of Kirkuk to question the assumptions about the past underpinning today's ethnic divisions. In the early 1920s, when the Iraqi state was formed under British administration, group identities in Kirkuk were fluid. But as the oil industry fostered colonial power and Baghdad's influence over Kirkuk, intercommunal violence and competing claims to the city's history took hold. The ethnicities of Kurds, Turkmen, and Arabs in Kirkuk were formed throughout a century of urban development, interactions between communities, and political mobilization. Ultimately, this book shows how contentious politics in disputed areas are not primordial traits of those regions, but are a modern phenomenon tightly bound to the society and economics of urban life.

Constructing Nationalism in Iran Meir Litvak 2017-04-21 Nationalism has played an important role in the cultural and intellectual discourse of modernity that emerged in Iran from the late nineteenth century to the present, promoting new formulations of collective identity and advocating a new and more active role for the broad strata of the public in politics. The essays in this volume seek to shed light on the construction of nationalism in Iran in its many manifestations; cultural, social, political and ideological, by exploring on-going debates on this important and progressive topic.

QUEST FOR DEMOCRACY IN IRAN C Fakhreddin AZIMI 2009-06-30 "In a book that provides essential context for understanding modern Iran, Fakherrdin Azami present a trenchant narrative- of the history of Iran over the last century, covering political-constitutional developments, society, civic culture, ideology, foreign relations, the economy, and the confrontation between traditionalism and modernity." "In an original account of the revolution of 1978-1979, which overthrew the monarchy, Azimi underlines the salience of democratic aspirations and shows how the rise of the Islamic Republic has boosted the deeply rooted democratic urges in the country." "Based on wide-ranging, original research, this probing and passionate book offers vital historical analysis and addresses issues that remain profoundly relevant to the lives of contemporary Iranians. Equally important, Azimi dispels many misunderstandings about democracy, civic life, and Islamism in Middle Eastern and Muslim societies."--Jacket.

Marxism-Leninism on War and Army 1978

The Gulf Conflict, 1990-1991 Lawrence Freedman 1995-01-29 The Gulf Conflict provides the most authoritative and comprehensive account to date of Iraq's occupation of Kuwait, its expulsion by a coalition of Western and Arab forces seven months later, and the aftermath of the war. Blending compelling narrative history with objective analysis, Lawrence Freedman and Efraim Karsh inquire into the fundamental issues underlying the dispute and probe the strategic calculations of all the participants.

The Politics and Security of the Gulf Jeffrey R. Macris 2010-01-21 Since the 19th century the Gulf region has been an area of intense interest, having been influenced first by the British and more recently by the Americans. This book charts the changing security and political priorities of these two powers and how they have shaped the region. Adopting a narrative approach, the author provides background history on British involvement from the 19th century and a detailed analysis of the years after the Second World War, when oil supply became more critical. He covers the growth of US influence and the British withdrawal, and follows more recent changes as the US built up its military presence following Desert Storm and the invasion of Iraq. Looking at the three enduring missions fulfilled by the British - maintaining interstate order, protecting the free flow of commerce, which later included petroleum; and keeping out other Great Powers - the book demonstrates how these had by 1991 been assumed almost entirely by the American leaders. A comprehensive and thorough look at the history of the Gulf and the contemporary issues affecting the region, this will be essential reading for students of Middle East history, military history and diplomatic history. Visit the author's website at www.thepoliticsandsecurityofthegulf.com

Suez 1956 William Roger Louis 1991 This is an analysis, based on newly available evidence, of the Suez crisis of 1956, its origins, and its consequences. The contributors are all leading authorities, and some, like Mordechai Bar-On, Robert Bowie and Adam Watson, were active participants in the events of the time.

The Gulf Monarchies Gawdat Bahgat 1997

Children of Paradise Laura Secor 2016-02-02 The drama that shaped today's Iran, from the Revolution to the present day. In 1979, seemingly overnight—moving at a clip some thirty years faster than the rest of the world—Iran became the first revolutionary theocracy in modern times. Since then, the country has been largely a black box to the West, a sinister presence looming over the horizon. But inside Iran, a breathtaking drama has unfolded since then, as religious thinkers, political operatives, poets, journalists, and activists have imagined and reimaged what Iran should be. They have drawn as deeply on the traditions of the West as of the East and have acted upon their beliefs with urgency and passion, frequently staking their lives for them. With more than a decade of experience reporting on, researching, and writing about Iran, Laura Secor narrates this unprecedented history as a story of individuals caught up in the slipstream of their time, seizing and wielding ideas powerful enough to shift its course as they wrestle with their country's apparatus of violent repression as well as its rich and often tragic history. Essential reading at this moment when the fates of our countries have never been

more entwined, Children of Paradise will stand as a classic of political reporting; an indelible portrait of a nation and its people striving for change.

Russia's Military Way to the West Christopher Duffy 2015-10-05 This book provides an historical perspective on the growth of Russian military power, studying the emergence of the Russian regular army from 1700 until the end of the eighteenth century. In the process he evaluates the relative importance of Western and native influences on the creation of this formidable military machine, and indicates the ways in which Russian power was projected in the West. The book includes general discussions of the Russian soldier, the Russian officer and the rapacious Cossacks, and concludes by identifying certain important continuities between the Russian past and present.

The Security of the Caspian Sea Region Leader of the Sipri Project on the Security of the Caspian Sea Region and Associate Member Gennady Chufrin 2001 Published in association with the Stockholm International Peace Research Institute.

Nuclear Multilateralism and Iran Tarja Cronberg 2017-02-10 Drawing on the author's personal experience, this book presents an insider's chronology and policy analysis of the EU's role in the nuclear negotiations with Iran. The European Union strives to be a global player, a "soft power" leader that can influence international politics and state behavior. Yet critics argue that the EU's Common Foreign and Security Policy (CFSP) remains largely ineffective and incoherent. The EU's early and continuous involvement in the effort to dissuade Iran from developing nuclear weapons can be viewed as a test case for the EU as a global actor. As Chair of the European Parliament's delegation for relations with Iran, Tarja Cronberg had a ringside seat in the negotiations to prevent Iran from developing nuclear weapons. Drawing on her experiences leading a parliamentary delegation to Iran and interviews with officials, legislators and opposition leaders in nearly every country participating in the negotiations, as well as reports by the International Atomic Energy Agency, parliaments and independent experts, the author illustrates an insider's strategic understanding of the negotiations. Intersecting history, politics, economics, culture and the broader security context, this book not only delivers a unique analysis of this historic deal and the twelve-year multilateral pursuit of it, but draws from it pertinent lessons for European policy makers for the future. This book will be of much interest to students of nuclear proliferation, EU policy, diplomacy and international relations in general.

France and the Arabian Gulf The Emirates Center for Strategic Studies and Research 2007 France has had a long-standing and historically significant relationship with the Arab world; one that is bolstered by the growing volume of bilateral trade in oil and gas between France and the GCC states. However, a more stable partnership has been established through investment and security. French security commitments manifest themselves in three ways: through support in the fight against terrorism, contributions to the defense capacities of the GCC countries and a willingness to participate in a collective system to safeguard Gulf security. Defense cooperation is strongest with the UAE, boosted to a great extent by the Offset Program. This has opened up new avenues for cooperation in other economic and strategic fields. Although bilateral defense cooperation reached its apogee in the 1990s and now faces serious competition from the USA, major French industries in sectors such as water, electricity, transportation and communications, as well as health and education have been able to export their expertise and participate in the training of local companies. The relationship between France and the GCC states has encouraged cooperative ties between the GCC and the European Union (EU), which largely inspired its own model for regional integration. In this book, reinforced cooperation between the EU and the Gulf Cooperation Council is an important element in facilitating constructive exchanges on the stabilization of the Middle East, the resolution of crises and a reorientation towards a multi-polar world order.

Warfare, State and Society on the Black Sea Steppe, 1500-1700 Brian Davies 2014-04-04 This crucial period in Russia's history has, up until now, been neglected by historians, but here Brian L. Davies' study provides an essential insight into the emergence of Russia as a great power. For nearly three centuries, Russia vied with the Crimean Khanate, the Polish-Lithuanian Commonwealth and the Ottoman Empire for mastery of the Ukraine and the fertile steppes above the Black Sea, a region of great strategic and economic importance - arguably the pivot of Eurasia at the time. The long campaign took a great toll upon Russia's population, economy and institutions, and repeatedly frustrated or redefined Russian military and diplomatic projects in the West. The struggle was every bit as important as Russia's wars in northern and central Europe for driving the Russian state-building process, forcing military reform and shaping Russia's visions of Empire.

Medicinal Plants of Central Asia: Uzbekistan and Kyrgyzstan Sasha W. Eisenman 2012-09-14 This unique book is a collaborative effort between researchers at Rutgers University and colleagues from numerous institutions in Uzbekistan and Kyrgyzstan. It will be the first book to document more than 200 of the most important medicinal plants of Central Asia, many whose medicinal uses and activities are being described in English for the first time. The majority of the plants described grow wild in Central Asia with some being endemic, while other species have been introduced to Central Asia but are commonly used in regional plant based medicine. The book contains four introductory chapters. The first and second chapters cover the geography, climate and vegetation of Kyrgyzstan and Uzbekistan, respectively. The third chapter provides a brief history of medicinal plant use and science in Central Asia and the fourth chapter contains general information about phytochemistry. The fifth chapter comprises the bulk of the book and covers 208 medicinal plant species. Nearly all species have one or more high quality, color photographs. Three useful appendices have been included. The first is a glossary of botanical and ecological terms, the second is a glossary of chemistry terms and the third is a glossary of medical terms. During the preparation of this manuscript we found there to be a deficiency in quality reference resources for the translation of many of the technical terms associated with the different branches of science covered in this book. In order to make our job easier we compiled glossaries over the course of preparing the manuscript and have included them feeling that they will be an extremely valuable resource for readers.

Concise Encyclopedia of Islam Johannes Hendrik Kramers 2001 The Concise Encyclopedia of Islam is a mandatory reference tool that will prove to be indispensable for students of all subjects which concern, or touch on, the religion and law of Islam. It includes all the articles contained in the first edition and supplement of the Encyclopedia of Islam which are particularly related to the religion and law of Islam. This volume has a vast geographical and historical scope which includes the old Arabo-Islamic Empire, the Islamic states of Iran, Central Asia, the Indian sub-continent and Indonesia, the Ottoman Empire and the various Muslim states and communities in Africa, Europe, and the former U.S.S.R. The Concise Encyclopedia of Islam contains an extensive index and bibliography. This publication has also been published in hardback, please click here for details.

Daily Report 1996

A Modern History of Oman Francis Owtram 2004-06-25 A Modern History of Oman details the British influence in Oman from early contacts with the Sultan of Muscat in 1800. The discovery of oil in the region in 1932, following earlier Middle East discoveries, increased the key strategic importance of Oman and set the pattern for the 20th century. The ""modernizing"" Sultan Qabus, supported by the British, seized power by a coup in 1970, confirmed Oman's position as a key state in the Persian Gulf region. This illuminating work is based on state documents from Europe, US, Japan and the Arab world covering Oman and Western geopolitical policy.

Iran Gareth Stansfield 2016-09-22 Few countries can claim to have endured such a difficult and tortuous history as that of Iraq. Its varied peoples have had to contend with externally imposed state-building at the end of the First World War, through to the rise of authoritarian military regimes, to the all-encompassing power of Saddam Hussein's dictatorship. They have endured destructive wars, internationally-imposed sanctions, and a further bout of destabilizing regime change and subsequent state-building from 2003. The recent rise of the Islamic State, the consolidation of the Kurdistan Region, and the response of the Shi'i populace have brought the country to a de facto partition that may bring about Iraq's final demise. The second edition of Iraq: People, History, Politics provides a comprehensive analysis of the political, societal, and economic dynamics that have governed Iraq's modern development. Situating recent events within a longer historical timeframe, this book is a must-read for anyone wanting to understand the deep histories that underpin the contemporary politics of this war-torn and troubled state.

External Powers and the Gulf Monarchies Jonathan Fulton 2018-08-23 The Gulf monarchies have been generally perceived as status quo actors reliant on the USA for their security, but in response to regional events, particularly the Arab Spring of 2011, they are pursuing more activist foreign policies, which has allowed other international powers to play a larger role in regional affairs. This book analyses the changing dynamic in this region, with expert contributors providing original empirical case studies that examine the relations between the Gulf monarchies and extra-regional powers, including the USA, Russia, China, India, Brazil, Turkey, Japan, South Korea, France, and the United Kingdom. At the theoretical level, these case studies explore the extent to which different international relations and international political economy theories explain change in these relationships as the regional, political and security environment shifts. Focusing on how and why external powers approach their relationships with the Gulf monarchies, contributors ask what motivates external powers to pursue deeper involvement in an unstable region that has seen three major conflicts in the past 40 years. Addressing an under-analysed, yet important topic, the volume will appeal to scholars in the fields of international relations and international political economy as well as area specialists on the Gulf and those working on the foreign policy issues of the extra-regional powers studied.

Iran Looking East Annalisa Perteghella 2020-01-12 In February 2018, anticipating the US withdrawal from the JCPOA, Iran’s Supreme Leader Ayatollah Ali Khamenei declared a policy of “preferring East over West”, thus paving the way for deeper cooperation with Asian powers such as China, Russia, and India. Differently from the “Look East” policy promoted during the presidency of Ahmadinejad (2005-2013), the current Iranian strategy is not only functional to escape the US-led isolation, but it rather seems devoted to the consolidation of a block of power which can commit to security and economic schemes in alternative to the Western-dominated ones.This ISPI report aims to answer few crucial questions: Which are the major initiatives promoted within Iran’s “Look East 2.0” strategy? To what extent will Tehran succeed in creating a solid Eastern block? What will be the influence of the wider geopolitical context? And finally, what role is left for the EU?

The Age of Sacred Terror Daniel Benjamin 2002-10-01 Daniel Benjamin and Steven Simon began working on this book shortly after leaving the National Security Council, where, as director and senior director for counterterrorism, they watched the rise of al-Qaeda and helped coordinate America's fight against Usama bin Laden and his organization. They warned in articles and interviews about the appearance of a new breed of terrorists who were determined to kill on the grand scale. More than a year before September 11, 2001, they began writing The Age of Sacred Terror to sound the alarm for a nation that had not recognized the gravest threat of our time. One of their book's original goals has remained: to provide the insights to understand an enemy unlike any seen in living memory—one with an extraordinary ability to detect weakness and exploit it, one with a determination to inflict catastrophic damage, one that will not be deterred. But after September 11, a second, equally crucial goal was added: to understand how America let its defenses down, how warnings went unheeded, and how key parts of the government failed at vital tasks. The Age of Sacred Terror also describes the road ahead, where the terrorists will look to draw strength, and what the United States must do, at home and abroad, to stop them. For a year after the attacks that redefined terrorism and devastated the public's sense of security, America has been searching for answers about those responsible for one of the darkest days in our history and explanations for the glaring gaps in our defenses. The Age of Sacred Terror provides both, with unique authority. It is the book that Americans must read to understand the foremost challenge we face.

Warfare in Eastern Europe, 1500-1800 2012-01-05 A comparative examination of military development in early modern Eastern Europe, focusing on Russian, Polish-Lithuanian, Ottoman, Habsburg, Cossack, and Western European mercenary practice.

The MENA Region: A Great Power Competition AA.VV. 2019-10-25 The volume deals with competition among regional and external players for the redistribution of power and international status in the Middle East and North Africa, with a focus on Russia's renewed role and the implications for US interests. Over the last few years, a crisis of legitimacy has beset the liberal international order.In this context, the configuration of regional orders has come into question, as in the extreme case of the current collapse in the Middle East. The idea of a “Russian resurgence” in the Middle East set against a perceived American withdrawal has captured the attention of policymakers and scholars alike, warranting further examination. This volume, a joint publication by ISPIand the Atlantic Council, gathers analysis on Washington’s and Moscow’s policy choices in the MENA region and develops case studies of the two powers’ engagement in the countries beset by major crises.

Security in the Persian Gulf Region Fatemeh Shayyan 2017-01-09 This book examines changes in the Persian Gulf security complex following the United States (US) invasion of Iraq in 2003, focusing on threats to the collective identities of two religious sects - Shia and Sunni. Although there is a growing body of literature examining security in the Persian Gulf, little focus has been given to the theoretical and methodological aspects of the problem. In this volume, Shayyan analyses the causes behind the security changes which occurred in the region since 2003 and demonstrates how regional security dynamics are interlinked to perceived sectarian threats on the Shia and Sunni religious identities. This text is essential reading for political scientists, policy makers and scholars of international relations.

Iran, Islam and Democracy Ali M. Ansari 2006 Revised, updated, and expanded, this new edition details political developments in Iran since the summer of 2000. In expanding on arguments outlined in the first edition, the book looks at the increasing polarity of views and the changing nature of “reformism” in light of successive setbacks and growing international tensions.

Soviet Civil Defense United States. Central Intelligence Agency 1978
