The Music of Francis Poulenc (1899-1963) Carl B. Schmidt
1995-10-19 The name of Francis Poulenc (1899-1963) was first brought to prominence in the 1920s as a member of Les Six, a group of young French composers encouraged by Satie and Cocteau. His subsequent fame spread well beyond France, and he is coming to be regarded as one of this century's most significant composers. His compositions are heard constantly in concert halls the world over, and numerous recordings, including complete sets of songs and piano music, have been released. Books, articles

and more than a dozen doctoral dissertations have discussed his music. Carl Schmidt's catalogue of Poulenc's works represents the first comprehensive attempt to list an oeuvre which numbers approximately 185 compositions written from his teenage years until his death at the age of 63. The Catalogue identifies a number of unpublished works, and adds a small group of compositions to his musical canon for the first time. Each work, whether complete or unfinished, published or unpublished, is described fully. Catalogue entries list and describe all known printed editions (including reprints) and manuscript copies of each work. In addition, they provide detailed compositional histories based on numerous letters, documents, and press accounts, many of which have not been published previously. Russian interest in Poulenc's music, manifested in press runs exceeding one million copies, is also revealed for the first time.

A Biographical Dictionary of Women's Movements and Feminisms

Francisca de Haan 2006-01-10 This Biographical Dictionary describes the lives, works and aspirations of more than 150 women and men who were active in, or part of, women's movements and feminisms in Central, Eastern and South Eastern Europe. Thus, it challenges the widely held belief that there was no historical feminism in this part of Europe. These innovative and often moving biographical portraits not only show that feminists existed here, but also that they were widespread and diverse, and included Romanian princesses, Serbian philosophers and peasants, Latvian and Slovakian novelists, Albanian teachers, Hungarian Christian social workers and activists of the Catholic women's movement, Austrian factory workers, Bulgarian feminist scientists and socialist feminists, Russian radicals, philanthropists, militant suffragists and Bolshevik activists, prominent writers and philosophers of the Ottoman era, as well as Turkish republican leftist political activists and nationalists, internationally recognized Greek feminist leaders, Estonian pharmacologists and science historians, Slovenian 'literary feminists,' Czech avant-garde painters, Ukrainian feminist scholars, Polish and Czech Senate Members, and many more. Their stories together constitute a rich tapestry of feminist activity and redress a serious imbalance in the historiography of women's movements and feminisms.

Stanislavsky in Practice Vreneli Farber 2008 Stanislavsky in Practice focuses on the course of study pursued today by aspiring actors in Russia and on the philosophy that informs this curriculum. It draws on extensive observation during the

academic year 2000-2001 of the actor training program of the St. Petersburg State Academy of Theatre Arts (SPGATI), one of the three most prestigious theatrical institutes in Russia, and on interviews of a wide array of individuals in the Academy.

Although the years since 1991 have witnessed many changes in theater and in actor training - sources of funding, administration, choice of repertoire, new methodologies, etc. - there remains much continuity with the past. The core of this continuity is the Stanislavsky tradition, which nevertheless has been affected by the views of post-Soviet Russia. The developments in actor training from 1991 to 2001 reflect the challenges and problems faced by other institutions in the arts and sciences. In other words, the phenomenon of continuity and discontinuity with the past is characteristic of other institutions in Russia, cultural as well as scientific and educational.

Life Histories of Ethnos Theory in Russia and Beyond David G. Anderson 2019-02-25 The idea of ethnos came into being over a hundred years ago as a way of understanding the collective identities of people with a common language and shared traditions. In the twentieth century, the concept came to be associated with Soviet state-building, and it fell sharply out of favour. Yet outside the academy, ethnos-style arguments not only persist, but are a vibrant part of regional anthropological traditions. *Life Histories of Ethnos Theory in Russia and Beyond* makes a powerful argument for reconsidering the importance of ethnos in our understanding of ethnicity and national identity across Eurasia. The collection brings to life a rich archive of previously unpublished letters, fieldnotes, and photographic collections of the theory's early proponents. Using contemporary fieldwork and case studies, the volume shows how the ideas of these ethnographers continue to impact and shape identities in various regional theatres from Ukraine to the Russian North to

the Manchurian steppes of what is now China. Through writing a life history of these collectivist concepts, the contributors to this volume unveil a world where the assumptions of liberal individualism do not hold. In doing so, they demonstrate how notions of belonging are not fleeting but persistent, multi-generational, and bio-social. This collection is essential reading for anyone interested in Russian and Chinese area studies. It will also appeal to historians and students of anthropology and ethnography more generally.

The Electrification of Russia, 1880-1926 Jonathan Coopersmith 2016-11-01 The Electrification of Russia, 1880-1926 is the first full account of the widespread adoption of electricity in Russia, from the beginning in the 1880s to its early years as a state technology under Soviet rule. Jonathan Coopersmith has mined the archives for both the tsarist and the Soviet periods to examine a crucial element in the modernization of Russia. Coopersmith shows how the Communist Party forged an alliance with engineers to harness the socially transformative power of this science-based enterprise. A centralized plan of electrification triumphed, to the benefit of the Communist Party and the detriment of local governments and the electrical engineers. Coopersmith's narrative of how this came to be elucidates the deep-seated and chronic conflict between the utopianism of Soviet ideology and the reality of Soviet politics and economics.

Encyclopedia of Russian Women's Movements Norma Noonan Corigliano 2001 A comprehensive resource profiling individuals and organizations associated with Russian women's movements from the early 19th century to the post-Soviet era. Contributions by approximately fifty authors from the United States, Russia, Europe, and Canada focus upon the struggle of women to change their society and advance their gender interests. Women activists pursued improvement in educational opportunities, fought for suffrage, established journals, and sought to transform women's consciousness and establish women's studies programs and women's crises centers. They were a strong voice against the tsarist regime and the oppression of communism. Their objectives were as diverse as their strategies, which ranged from incremental reform, to terrorism, to the establishment of women's electoral organizations. This volume contains a comprehensive glossary of term and phrases and a chronology to help put events and developments into historical context. Entries are fully cross-

referenced and are followed by suggested readings. This book will be of interest to students and scholars of Russian history and politics, women's history and gender studies.

The Soviet Union and Communist China 1945-1950: The

Arduous Road to the Alliance Dieter Heinzig 2015-06-18

Drawing on a wealth of new sources, this work documents the evolving relationship between Moscow and Peking in the twentieth century. Using newly available Russian and Chinese archival documents, memoirs written in the 1980s and 1990s, and interviews with high-ranking Soviet and Chinese eyewitnesses, the book provides the basis for a new interpretation of this relationship and a glimpse of previously unknown events that shaped the Sino-Soviet alliance. An appendix contains translated Chinese and Soviet documents - many of which are being published for the first time. The book focuses mainly on Communist China's relationship with Moscow after the conclusion of the treaty between the Soviet Union and Kuomintang China in 1945, up until the signing of the treaty between Moscow and the Chinese Communist Party in 1950. It also looks at China's relationship with Moscow from 1920 to 1945, as well as

developments from 1950 to the present. The author reevaluates existing sources and literature on the topic, and demonstrates that the alliance was reached despite disagreements and distrust on both sides and was not an inevitable conclusion. He also shows that the relationship between the two Communist parties was based on national interest politics, and not on similar ideological convictions.
