An Academy at the Court of the Tsars Nikolaos Chrissidis 2016-08-10 The first formally organized educational institution in Russia was established in 1685 by two Greek hieromonks, Ioannikios and Sophronios Leichoudes. Like many of their Greek contemporaries in the seventeenth century, the brothers acquired part of their schooling in colleges of post-Renaissance Italy under a precise copy of the Jesuit curriculum. When they created a school in Moscow, known as the Slavo-Greco-Latin Academy, they emulated the structural characteristics, pedagogical methods, and program of studies of Jesuit prototypes. In this original work, Nikolaos A. Chrissidis analyzes the academy's impact on Russian educational practice and situates it in the contexts of Russian-Greek cultural relations and increased contact between Russia and Western Europe in the seventeenth century. Chrissidis demonstrates that Greek academic and cultural influences on Russia in the second half of the seventeenth century were Western in character, though Orthodox in doctrinal terms. He also shows that Russian and Greek educational enterprises were part of the larger European pattern of Jesuit academic activities that impacted Roman Catholic and Eastern Orthodox educational establishments and curricular choices. An Academy at the Court of the Tsars is the first study of the Slavo-Greco-Latin Academy in English and the only one based on primary sources in Russian, Church Slavonic, Greek, and Latin. It will interest scholars and students of early modern Russian and Greek history, of early modern European intellectual history and the history of science, of Jesuit education, and of Eastern Orthodox history and culture.

Cook with Jamie Jamie Oliver 2007-10-02 My guide to making you a better cook. I can't tell you how long I've dreamed about writing this book. It's the biggest book I've ever done, and I've really tried to make it a timeless, modern-day classic. Whether you're a student, a young couple, an established cook, or a novice, I'll take you through a whole load of simple and accessible recipes that will blow the socks off your family and any guests you might have round for dinner. There's information on the equipment that I think you should have in your kitchen, advice on how to recognize and cook loads of different cuts of meat, as well as on how to get the best value and quality when you're out shopping. With all of us consuming more processed food than ever, it's a sad fact that most people just aren't confident enough to cook anymore. With this in mind, now is the time for you to get stuck in and reclaim your fantastic cooking heritage! You know what . . . if you're going to eat three times a day for the rest of your life, you might as well learn to cook properly and enjoy it! So roll up your sleeves and let me help you. P.S.: By the way, you should feel good about buying this book because every single penny I make from it will go toward training and inspiring young kids from tough backgrounds all over the world to have a career in food through the Fifteen Foundation. So on behalf of them, thank you.
