2013-11-21 The past three decades have seen
European Cinema after the Wall Leen Engelen

the rise of a transnational European cinema, not

only in terms of production, but also in terms of a growing focus on multi-ethnic themes within the European context. The collapse of the Iron Curtain and the subsequent (and on-going) enlargement of the European Union have played a major role in this shift from national to trans-European filmmaking. Its most obvious on-screen manifestation is the increased visibility of immigrant groups from former communist countries, ranging from Krzysztof Kieslowski's *Blanc* (1994) and Pawel Pawlikowski's *Last Resort* (2000) to Hans-Christian Schmid's *Lichter* (2003), Ken Loach's *It is a Free World* (2007)

and Bobby Paunescu's *Francesca* (2009). Through its focus on cinematic representations of post-1989 migration from the former Eastern Bloc to Western Europe, *When East and West Meet* seeks to examine what these films reveal about the cultures producing and consuming these migration narratives and to what extent these images function as a site for new (trans)regional, (trans)national and European identities. *When East Meets West* explicitly crosses the boundaries of national cinemas and sets out to uncover an array of common tropes and narrative devices that characterize the influences and

portrayals of immigration from the former Eastern Bloc.

The Blood Libel Legend Alan Dundes 1991-11-01

Alan Dundes, in this casebook of an anti-Semitic

legend, demonstrates the power of folklore to influence thought and history. According to the blood libel legend, Jews murdered Christian infants to obtain blood to make matzah. Dundes has gathered here the work of leading scholars who examine the varied sources and elaborations of the legend. Collectively, their essays constitute a forceful statement against this false accusation. The legend is traced from the murder of William of Norwich in 1144, one of the first reported cases of ritualized murder attributed to Jews, through nineteenth-century Egyptian reports, Spanish examples, Catholic periodicals, modern

English instances, and twentieth-century American cases. The essays deal not only with historical cases and surveys of blood libel in different locales, but also with literary renditions of the legend, including the ballad “Sir Hugh, or, the Jew’s Daughter” and Chaucer’s “The Prioress’s Tale.” These case studies provide a comprehensive view of the complex nature of the blood libel legend. The concluding section of the volume includes an analysis of the legend that focuses on Christian misunderstanding of the Jewish feast of Purim and the child abuse component of the legend and that attempts to

bring psychoanalytic theory to bear on the content of the blood libel legend. The final essay by Alan Dundes takes a distinctly folkloristic approach, examining the legend as part of the belief system that Christians developed about Jews. This study of the blood libel legend will interest folklorists, scholars of Catholicism and Judaism, and many general readers, for it is both the literature and the history of anti-Semitism.

Internal Colonization Alexander Etkind 2013-04-29

This book gives a radically new reading of Russia's cultural history. Alexander Etkind traces how the Russian Empire conquered foreign territories and domesticated its own heartlands, thereby colonizing many peoples, Russians included. This vision of colonization as simultaneously internal and external, colonizing one's own people as well as others, is crucial for scholars of empire, colonialism and globalization. Starting with the fur trade, which shaped its enormous territory, and ending with Russia's collapse in 1917, Etkind

exploresserfdom, the peasant commune, and other institutions of internalcolonization. His account brings out the formative role of foreigncolonies in Russia, the self-colonizing discourse of Russianclassical historiography, and the revolutionary leaders'illusory hopes for an alliance with the exotic, pacifistsectarians. Transcending the boundaries between history andliterature, Etkind examines striking writings about Russia'simperial experience, from Defoe to Tolstoy and from Gogol toConrad. This path-breaking book blends together historical, theoretical andliterary analysis in a highly original

way. It will be essentialreading for students of Russian history and literature and foranyone interested in the literary and cultural aspects ofcolonization and its aftermath.

Making Uzbekistan Adeeb Khalid 2015-12-21 In Making Uzbekistan, Adeeb Khalid chronicles the tumultuous history of Central Asia in the age of the Russian revolution. He explores the complex interaction between Uzbek intellectuals, local Bolsheviks, and Moscow to sketch out the flux of the situation in early-Soviet Central Asia. His focus on the Uzbek intelligentsia allows him to recast our understanding of Soviet nationalities policies. Uzbekistan, he argues, was not a creation of Soviet policies, but a project of the Muslim intelligentsia that emerged in the Soviet

context through the interstices of the complex politics of the period. Making Uzbekistan introduces key texts from this period and argues that what the decade witnessed was nothing short of a cultural revolution.

Marines in the Revolution Charles R. Smith

2014-05-31 On 10 November 1775 the Second Continental Congress authorized the raising of two battalions of Marines. From this small beginning we have seen the United States Marine Corps grow into a powerful force for the nation's security. In this volume, through the actions and words of the participants, we read of a small Marine force which promptly challenged Great

Britain's control on both land and sea. Our first amphibious raid landed in the Bahamas on 3 March 1776, capturing gravely needed munitions, and proving to the foe that the infant American Marine Corps was a threat to be reckoned with. Likewise we read of small bands of Marines who dared to stand in the way of British troops at Princeton, New Jersey, and Charleston, South Carolina. And we also learn of the little-known Marine expedition down the Mississippi River under naval Captain James Willing in 1778. Historians, past and present, all too often neglect completely the maritime history of the American

Revolution or they pass over it with superficial attention. Mr. Charles R. Smith has corrected this omission with respect to Continental Marines. Based on extensive and careful research, the author has rescued from oblivion those actions from which our modern concepts of amphibious warfare have grown. Original artwork used to illustrate this volume was prepared by Major Charles H. Waterhouse, USMCR. A free-lance illustrator, Major Waterhouse's work has appeared in a wide variety of publications, ranging from children's books to his forthright interpretations of the war in Vietnam, published under the titles,

Vietnam Sketchbook-Drawings from Delta to DMZ, and Vietnam War Sketches-From the Air, Land and Sea. The original text and artwork have been used in this publication; occasionally there may be instances of imperfections with these old texts (i.e., blurred or missing pages, poor image quality).

Act and Idea in the Nazi Genocide Berel Lang

2003-01-01 This work is an analysis of the ideology, causal patterns, and means employed in the Nazi genocide against the Jews. It argues that the events of the genocide compel reconsideration of such moral concepts as individual and group responsibility, the role of knowledge in ethical decisions, and the conditions governing the relation between guilt and

forgiveness. It shows how the moral implications of genocide extend to linguistic and artistic presentations of the Nazi extermination of the Jews.

The Politics of Muslim Cultural Reform Adeeb

Khalid 1999-01-01 Adeeb Khalid offers the first extended examination of cultural debates in Central Asia during Russian rule. With the Russian conquest in the 1860s and 1870s the region came into contact with modernity. The Jadids, influential Muslim intellectuals, sought to safeguard the indigenous Islamic culture by adapting it to the modern state. Through

education, literacy, use of the press and by maintaining close ties with Islamic intellectuals from the Ottoman empire to India, the Jadids established a place for their traditions not only within the changing culture of their own land but also within the larger modern Islamic world. Khalid uses previously untapped literary sources from Uzbek and Tajik as well as archival materials from Uzbekistan, Russia, Britain, and France to explore Russia's role as a colonial power and the politics of Islamic reform movements. He shows how Jadid efforts paralleled developments elsewhere in the world

and at the same time provides a social history of the Jadid movement. By including a comparative study of Muslim societies, examining indigenous intellectual life under colonialism, and investigating how knowledge was disseminated in the early modern period, *The Politics of Muslim Cultural Reform* does much to remedy the dearth of scholarship on this important period. Interest in Central Asia is growing as a result of the breakup of the former Soviet Union, and Khalid's book will make an important contribution to current debates over political and cultural autonomy in the region.

Sigfried Giedion: Liberated Dwelling Sigfried

Giedion 2018-11-20 In 1929, the great Swiss historian and architecture critic Sigfried Giedion (1888-1968)--later the author of the classics *Space, Time and Architecture* (1941) and *Mechanization Takes Command* (1948)--issued *Befreites Wohnen* (*Liberated Dwelling*), a small but vocal architecture manifesto and an early expression of modernist housing ideology. From the vision of an international architectural

modernism (a mission with which Giedion was involved as the first secretary-general of the International Congresses of Modern Architecture, between 1928 and 1959) to debates on the industrialization of construction processes and their impact on public housing, *Liberated Dwelling* expresses the dreams and anxieties of early 20th-century modernist architecture. In addition to its polemical argument--a call for "the cheap house, the open house, the house that makes our lives easier"--*Liberated Dwelling* was a landmark publication in several respects. A critical step in Giedion's rise as one of modernism's most

eloquent champions, the manifesto was based on the argumentative power of illuminating visual comparisons. The only book Giedion both authored and designed, it is a photobook as well as an architectural tract. Sigfried Giedion: *Liberated Dwelling* introduces this critical text to English-language readers for the first time, with an English translation presented in a slipcase alongside a facsimile edition in German, supplemented with comprehensive annotations and a scholarly essay anchoring the work in its context.
