Stanislavsky in Practice Vreneli Farber 2008 Stanislavsky in Practice focuses on the course of study pursued today by aspiring actors in Russia and on the philosophy that informs this curriculum. It draws on extensive observation during the academic year 2000-2001 of the actor training program of the St. Petersburg State Academy of Theatre Arts (SPGATI), one of the three most prestigious theatrical institutes in Russia, and on interviews of a wide array of individuals in the Academy. Although the years since 1991 have witnessed many changes in theater and in actor training - sources of funding, administration, choice of repertoire, new methodologies, etc. - there remains much continuity with the past. The core of this continuity is the Stanislavsky tradition, which nevertheless has been affected by the views of post-Soviet Russia. The developments in actor training from 1991 to 2001 reflect the challenges and problems faced by other institutions in the arts and sciences. In other words, the phenomenon of continuity and discontinuity with the past is characteristic of other institutions in Russia, cultural as well as scientific and educational.

The Light Course Rudolf Steiner 2001 11 lectures, Stuttgart and Dornach, Dec. 23, 1919 - Aug. 8, 1921 (CW 320) "Now the time has actually arrived when...we have a subconscious glimmering of the impossibility of the modern approach to nature and some sense that things have to change" (Rudolf Steiner). This course on Light---also exploring color, sound, mass, electricity and magnetism---presages the dawn of a new worldview in the natural sciences that will stand our notion of the physical world on its head. This "first course" in natural science, given to the teachers of the new Stuttgart Waldorf school as an inspiration for developing the physics curriculum, is based on Goethe's phenomenological approach to the study of nature. Acknowledging that modern physicists had come to regard Goethe's ideas on physics as a "kind of nonsense." Rudolf Steiner contrasts the traditional scientific approach, which treats phenomena as evidence of "natural laws," with Goethean science, which rejects the idea of an abstract law behind natural phenomena and instead seeks to be a "rational description of nature." Steiner then corrects the mechanistic reductionism practiced by scientific positivists, emphasizing instead the validity of human experience and pointing toward a revolution in scientific paradigms that would reclaim ground for the subject--the human being--in the study of nature. Russian Social Media Influence Todd C. Helmus 2018-04-12 Russia employs a sophisticated social media campaign against former Soviet states that includes news tweets, nonattributed comments on web pages, troll and bot social media accounts, and fake hashtag and Twitter campaigns. Nowhere is this threat more tangible than in Ukraine. Researchers analyzed social media data and conducted interviews with regional and security experts to understand the critical ingredients to countering this campaign.

A Biographical Dictionary of Women's Movements and Feminisms Francisca de Haan 2006-01-10 This Biographical Dictionary describes the lives, works and aspirations of more than 150 women and men who were active in, or part of, women's movements and feminisms in Central, Eastern and South Eastern Europe. Thus, it challenges the widely held belief that there was no historical feminism in this part of Europe. These innovative and often moving biographical portraits not only show that feminists existed here, but also that they were widespread and diverse, and included Romanian princesses, Serbian philosophers and peasants, Latvian and Slovakian novelists, Albanian teachers, Hungarian Christian social workers and activists of the Catholic women's movement, Austrian factory workers, Bulgarian feminist scientists and socialist feminists, Russian radicals, philanthropists, militant suffragists and Bolshevik activists, prominent writers and philosophers of the Ottoman era, as well as Turkish republican leftist political activists and nationalists, internationally recognized Greek feminist leaders, Estonian pharmacologists and science historians, Slovenian 'literary feminists,' Czech avant-garde painters, Ukrainian feminist scholars, Polish and Czech Senate Members, and many more. Their stories together constitute a rich tapestry of feminist activity and redress a serious imbalance in the historiography of women's movements and feminisms.

A Talent for Murder Andrew Wilson 2017-04-06 'I wouldn't scream if I were you. Unless you want the whole world to learn about your husband and his mistress.' Agatha Christie, in London to visit her literary agent, boards a train, preoccupied and flustered in the knowledge that her husband Archie is having an affair. She feels a light touch on her back, causing her to lose her balance, then a sense of someone pulling her to safety from the rush of the incoming train. So begins a terrifying sequence of events. Her rescuer is no guardian angel; rather, he is a blackmailer of the most insidious, manipulative kind. Agatha must use every ounce of her cleverness and resourcefulness to thwart an adversary determined to exploit her genius for murder to kill on his behalf. Literature and ELT: Louis Sachar's "Holes" Verena Schönrhuber 2013-01-02 Lesson Plan from the year 2012 in the subject English - Pedagogy, Didactics, Literature Studies, grade: 1,0, University of Vienna (Institut für Anglistik und Amerikanistik), course: Literature and ELT (Fachdidaktik-Kurs), language: English, abstract: Bei dieser Arbeit für den Fachdidaktik-Kurs "Literature and ELT" handelt es sich um eine Didaktikserie des Abenteuerromans "Holes" von Louis Sachar (ab 4./5. Lernjahr) mit einigen auf ergewöhnlichen Ideen zu Übungen/Aktivitäten rund um "Holes" (Dauer ca. 4 St.), welche auch auf andere literarische Werke angewandt werden können (creating wanted posters, telephone conversations with the author, ...). Inhalt: Introduction: Why teach literature (or Literature?) in ELT; Choice of text; Work plan for four lessons; Conclusion; Bibliography; Appendix/Work sheets: 'dig it', character sketch, 'mad lib', discuss-decide-survive, filling in the holes: questions, create your own 'wanted poster', reading log. Auszug: Choice of text We shouldn't teach great books; we should teach a love of reading. (B. F. Skinner) I have chosen the novel Holes by Louis Sachar with the quotation above in mind: even though it might not be classified as one of the 'great books', i.e. of '(high) Literature', it is definitely one of those books that can serve to 'teach a love of reading'. Holes is the exciting story of Stanley Yelnats (mind the palindrome!), an overweight *teenager who is sent to Camp Green Lake, a boys' juvenile detention centre. Stanley knows that this is due to a curse on his 'no-good-dirty-rotten-pig-stealing-great-great-grandfather', who did not fulfil a promise he had made to Madame Zeroni.* At the camp, Stanley and six other boys are forced to dig holes every day in order to pay their debt to society. However, Stanley soon finds out that there is more than 'character building' going on [...]. The novel and its main themes (friendship, racism, justice, fate, etc.) can be exploited in many appealing ways for classroom reading. [...] In the open learning sequence I have prepared, two basic approaches to reading a book in class are incorporated. First, there is the 'classical' approach with its well-established, successful activities, whereby the focus of assessment is (as is usual on an upper-secondary level) on both language and content. On the other hand, the activities on the second work sheet focus on the themes dealt with in the book. Since friendship, bullying, racism, etc. are issues in (nearly) every teenager's life, it can be motivating for the students to deal with these topics from a personal point of view, in a creative way. The activities on both work sheets are designed in a way that allows the students to plan which tasks to do when themselves.

Elena Minakova-Boblest 2018-10-12 "Modern Russian Idioms in Use" is designed for advanced learners of Russian, who wish to improve their knowledge of Russian idioms and to make their colloquial language more idiomatic and expressive. Since it is both a WORKBOOK and a REFERENCE BOOK, it is not necessary to use additional dictionaries or reference books. The book contains 125 ESSENTIAL RUSSIAN IDIOMS, which have been primarily chosen on the basis of their frequency of use in oral speech, but also in modern Russian films and in mass media, and cover a wide range of "everyday" topics. Every chapter includes a DIALOGUE presenting new idioms, followed by EXERCISES which train students to identify, understand and re-use the idioms in their right context. Most exercises are designed as dialogues: A dialogue makes it possible to imagine the situation of communication. The situations in the dialogues reflect typical everyday situations in Russia, providing crucial cultural context. Finally, every chapter provides DETAILED EXPLANATIONS of the idioms. Special attention has been focused here on COMPLETE GRAMMATICAL INFORMATION for each idiom, e.g. its syntactic role in the sentence as well as its morphological characteristics. For this reason, extensive information on its use is provided in numerous examples of free combinations with other words, phrase units and sentences. In addition, the book contains interesting ETYMOLOGICAL INFORMATION about the origin of most "non-transparent" idioms which are grounded in specific cultural and historical experiences and are therefore more difficult to understand. Finally, the book provides additional repetition exercises as well as an answer key. For better understanding of the idioms and their phonetically correct spelling in spoken language, it is recommended to use the AUDIO FILES, which include the dialogues and exercises with ANSWER KEY, making the book suitable for self-study as well as classroom use. The audio material is recorded by Russian PROFESSIONAL SPEAKERS (link for free download can be found inside the book). The book is an updated new edition of the textbook „Moderne russische Idiomatik" by Elena Minakova, published by Helmut Buske Verlag GmbH, Hamburg 2002, and by "Russkij Jazyk. Kursy Publishers" under the title „ " in Moscow, 2005 and 2008, Universitätsverlag GmbH.

National Academies of Sciences, Engineering, and Medicine 2020-09-19 The United States is formally represented around the world by approximately 14,000 Foreign Service officers and other personnel in the U.S. Department of State. Roughly one-third of them are required to be proficient in the local languages of the countries to which they are posted. To achieve this language proficiency for its staff, the State Department's Foreign Service Institute (FSI) provides intensive language instruction and assesses the proficiency of personnel before they are posted to a foreign country.
