Arab Television Industries Joe F. Khalil

2017-10-14 In recent years, Arab television has undergone a dramatic and profound transformation from terrestrial, government-owned, national channels to satellite, privately owned, transnational networks. The latter is the Arab television that matters today, economically, socially and politically. The resulting pan-Arab industry is vibrant, diverse, and fluid - very different, the authors of this major new study argue, from the prevailing view in the West, which focuses only on the al-Jazeera network. Based on a wealth of primary Arabic language sources, interviews with Arab television executives, and the authors' personal and professional experience with the industry, Arab Television Industries tells the story of that transformation, featuring compelling portraits of major players and institutions, and captures dominant trends in the industry. Readers learn how the transformation of Arab television came to be, the different kinds of channels, how programs are made and promoted, and how they are regulated. Throughout, the analysis focuses on the interaction of the television industry with Arab politics, business, societies and cultures.

Vietnam's Foreign Policy under Doi Moi Le Hong Hiep 2018-05-24

In 1986, the Communist Party of Vietnam (CPV) adopted the Doi Moi (Renovation) policy at its sixth national congress, opening up a new chapter in the country's modern history. Under Doi Moi, Vietnam has undergone significant socio-economic, political and foreign policy reforms that have transformed the country in many meaningful ways. This edited volume aims to provide an in-depth analysis of the multiple aspects and transformations of Vietnam's foreign policy over the past thirty years. The book is divided into three sections. The first covers the broader framework of Vietnam's foreign policy making and the historical evolution of Vietnam's diplomacy under Doi Moi. The second examines Vietnam's bilateral relationships with its major partners, namely the United States, China, Japan, India, Russia, its smaller neighbours (Cambodia and Laos), and ASEAN. Finally, the book looks into two major issues in Vietnam's current foreign policy: the management of the South China Sea disputes and the international economic integration process. As the most informative, updated and comprehensive volume on Vietnam's foreign policy under Doi Moi, the book is a useful reference for academics, policymakers and students, as well as anyone interested in contemporary Vietnam in general and its foreign policy in particular.

Women's Struggle for Higher Education in Russia, 1855-1900 Christine Johanson

1987-01-01 Unlike contemporary Soviet and Western accounts which emphasize the

involvement of educated women in the revolutionary movement, Christine Johanson investigates the relationship between developments in women's education and domestic politics of the post-Crimean War era. The author shows how the particular nature of autocratic rule under Alexander II facilitated the establishment of university-level courses for women, and demonstrates that Russian women who cooperated with the government in order to increase their educational opportunities far outnumbered the female revolutionists who sought to overthrow it. And, while acknowledging that Russian radicalism gave enormous encouragement to women's pursuit of university study, this book shows that it was the support of progressive statesmen and academics which allowed the creation of higher educational facilities for women. The attitudes, aspirations, and frustrations of women who enrolled in these educational facilities are also examined.

Considerable attention is given to the training and practice of female physicians and to the testing of their skills and commitment to social service in tradition-bound peasant villages and the field hospitals of the Russo-Turkish war. The concluding chapter explored the conservative reaction following the assassination of Alexander II and the subsequent closure of women's advanced educational facilities.

To the Ends of the Earth Thomas Neville Bonner 1992 In this book Thomas Bonner unveils the dramatic story of women's long struggle to become physicians. Focusing both on international comparisons and on the personal histories of many of the pioneers, their determination and dedication, their setbacks and successes, he shows how European and American women gradually broke through the wall of resistance to women in medicine. In pre-Civil War America, in Tsarist Russia, in Victorian England, special schools of medicine for women were widely established as early as 1850 as a kind of way-station on the road to medical coeducation. Only in Switzerland and France, at first, could women study medicine in classes with men. As a result, hundreds and then thousands of women from Russia, Eastern Europe, England, and the United States enrolled in Swiss or Parisian universities to gain the first-class education that was denied them at home.

In all, Bonner shows, at least 10,000 women left their homelands to study medicine in foreign countries before 1914. Coming almost literally from the ends of the earth, they formed the largest migration of professional women in history.

The Women's Liberation Movement in Russia

Richard Stites 2021-07-13 Richard Stites views the struggle for liberation of Russian women in the context of both nineteenth-century European feminism and twentieth-century communism.

The central personalities, their vigorous exchange of ideas, the social and political events that marked the emerging ideal of emancipation—all come to life in this absorbing and dramatic account. The author's history begins with the feminist, nihilist, and populist impulses of the 1860s and 1870s, and leads to the social mobilization campaigns of the early Soviet period.

Scholars in Exile Nadia Zavorotna 2020-03-28

In the interwar years, émigré scholars in Czechoslovakia provided continuity and a bridge for Ukrainian scholarship from its inception at the end of the nineteenth century to the development of Ukrainian studies in the twenty-first century. These scholars forged a legacy that spread beyond Czechoslovakia. Without their work in the postwar era, the development of Ukrainian émigré scholarship would not have flourished. Narrated from a Ukrainian perspective, *Scholars in Exile* concentrates on the astounding efforts by Ukrainians to establish institutions of higher learning in the unique democratic spirit of Tomás Garrigue Masaryk. The book also explores Ukrainian scholarly and professional societies, museum and archival collections, scholarly publishing, and little-known intellectual connections between Ukrainian émigré scholars and their colleagues in Czechoslovakia and various other European countries. *Scholars in Exile* brings to light an interesting facet of modern Ukrainian history, allowing for a better understanding of the general intellectual and institutional history of Ukraine.
