Factfulness Hans Rosling 2020-04-07 INSTANT NEW YORK TIMES BESTSELLER "One of the most important books I've ever read—an indispensable guide to thinking clearly about the world." – Bill Gates "Hans Rosling tells the story of 'the secret silent miracle of human progress' as only he can. But Factfulness does much more than that. It also explains why progress is so often secret and silent and teaches readers how to see it clearly." —Melinda Gates "Factfulness by Hans Rosling, an outstanding international public health expert, is a hopeful book about the potential for human progress when we work off facts rather than our inherent biases." - Former U.S. President Barack Obama Factfulness: The stress-reducing habit of only carrying opinions for which you have strong supporting facts. When asked simple questions about global trends—what percentage of the world's population live in poverty; why the world's population is increasing; how many girls finish school—we systematically get the answers wrong. So wrong that a chimpanzee choosing answers at random will consistently outguess teachers, journalists, Nobel laureates, and investment bankers. In Factfulness, Professor of International Health and global TED phenomenon Hans Rosling, together with his two long-time collaborators, Anna and Ola, offers a radical new explanation of why this happens. They reveal the ten

instincts that distort our perspective—from our tendency to divide the world into two camps (usually some version of us and them) to the way we consume media (where fear rules) to how we perceive progress (believing that most things are getting worse). Our problem is that we don't know what we don't know, and even our guesses are informed by unconscious and predictable biases. It turns out that the world, for all its imperfections, is in a much better state than we might think. That doesn't mean there aren't real concerns. But when we worry about everything all the time instead of embracing a worldview based on facts, we can lose our ability to focus on the things that threaten us most. Inspiring and revelatory, filled with lively anecdotes and moving stories, Factfulness is an urgent and essential book that will change the way you see the world and empower you to respond to the crises and opportunities of the future. --- "This book is my last battle in my life-long mission to fight devastating ignorance...Previously I armed myself with huge data sets, eye-opening software, an energetic learning style and a Swedish bayonet for sword-swallowing. It wasn't enough. But I hope this book will be." Hans Rosling, February 2017.

Crossing Boundaries, Building Bridges Annie Canel 2005-08-08 Women engineers have been in the public limelight for decades, yet we have surprisingly little historically grounded understanding of the patterns of employment and education of women in this field. Most studies are either policy papers or limited to statistical analyses. Moreover, the scant historical research so far available emphasizes the individual, single and unique character of those women working in engineering, often using anecdotal evidence but ignoring larger issues like the patterns of the labour market and educational institutions. *Crossing Boundaries, Building Bridges* offers answers to the question why women engineers have required special permits to pass through the male guarded gates of engineering and examines how they have managed this. It explores the differences and similarities between women engineers in nine countries from a gender point of view. Through case studies the book considers the mechanisms of exclusion and inclusion of women engineers.

Think Like a Monk Jay Shetty 2020-09-08 Jay Shetty, social media superstar and host of the #1 podcast *On Purpose*, distills the timeless wisdom he learned as a monk into practical steps anyone can take every day to live a less anxious, more meaningful life. When you think like a monk, you'll understand: -How to overcome negativity -How to stop overthinking -Why comparison kills love -How to use your fear -Why you can't find happiness by looking for it -How to learn from everyone you meet -Why you are not your thoughts -How to find your purpose -Why kindness is crucial to success -And much more... Shetty grew up in a family where you could become one of three things—a doctor, a lawyer, or a failure. His family was convinced he had chosen option three: instead of attending his college graduation ceremony, he headed to India to become a monk, to meditate every day for four to eight hours, and devote his life to helping others. After three years, one of his teachers told him that he would have more impact on the world if he left the monk's path to share his experience and wisdom with others. Heavily in debt, and with no recognizable skills on his résumé, he moved back home in north London with his parents. Shetty reconnected with old school friends—many

working for some of the world's largest corporations—who were experiencing tremendous stress, pressure, and unhappiness, and they invited Shetty to coach them on well-being, purpose, and mindfulness. Since then, Shetty has become one of the world's most popular influencers. In 2017, he was named in the Forbes magazine 30-under-30 for being a game-changer in the world of media. In 2018, he had the #1 video on Facebook with over 360 million views. His social media following totals over 38 million, he has produced over 400 viral videos which have amassed more than 8 billion views, and his podcast, On Purpose, is consistently ranked the world's #1 Health and Wellness podcast. In this inspiring, empowering book, Shetty draws on his time as a monk to show us how we can clear the roadblocks to our potential and power. Combining ancient wisdom and his own rich experiences in the ashram, Think Like a Monk reveals how to overcome negative thoughts and habits, and access the calm and purpose that lie within all of us. He transforms abstract lessons into advice and exercises we can all apply to reduce stress, improve relationships, and give the gifts we find in ourselves to the world. Shetty proves that everyone can—and should—think like a monk.

Kurs halten - bis zum Untergang Europas Sven Kesch 2021-12-06 Europäer waren einst eine GEMEINSCHAFT (EG/EWG), doch von Gemeinschaft kann seit Gründung der EU im Jahr 1992 keine Rede mehr sein.. Brüssel hat sich meilenweit vom Bürger entfernt. Das kafkaeske Konstrukt der EU ist derart undemokratisch, dass es sich selbst nicht als Mitgliedstaat aufnehmen dürfte. Die EU erfüllt nicht die Mindestanforderungen einer modernen Demokratie - ohne Opposition, ohne Initiativrecht des Parlaments etc. Sven Kesch berichtet in klarer Sprache ausführlich über unglaubliche Geldverschwendung, Korruption, Auswüchse, Regulierungswahn, Umverteilungs- und Solidaritätsmissbrauch, sowie all die hochgepriesenen "Säulen" der EU, die sich anders entwickelt haben, als von den Gründungsvätern gedacht. Als überzeugter Europäer plädiert Sven Kesch für einen Rückbau, für eine grundlegende Reform der EU, ohne all die krankhaften Wucherungen einer vollkommen aus dem Ruder gelaufenen EU.

Krótki kurs PRL według Barei Maciej Łuczak 2016-06-06 Tytuł książki w ironiczny sposób nawiązuje do komunistycznej biblii, jaką była Historia Wszechzwiązkowej Komunistycznej Partii (bolszewików). Krótki kurs. Książka ta opowiadała historię partii bolszewickiej oraz prezentowała masom - w sposób propagandowy i bardzo uproszczony - wykład o korzeniach komunizmu. We wstępie zawarto passus zachęcający do pilnej lektury dzieła: „Studiowanie bohaterskiej historii partii bolszewickiej uzbraja w znajomość praw rozwoju społecznego i walki politycznej, w znajomości napędowych sił rewolucji”. To patetyczne stwierdzenie można sparafrazować, odnosząc je do komedii reżysera Misia. Studiowanie filmów Stanisława Barei uzbraja nas w znajomość praw rozwoju społecznego i walki politycznej, w znajomości napędowych sił rewolucji. Filmy te, obok warstwy satyrycznej i obyczajowej, stanowią kompendium wiedzy o PRL. Dotyczy to świetnie przedstawionych realiów tamtego czasu , ale także wielu czytelnych aluzji oraz odniesień do prawdziwych wydarzeń, instytucji oraz postaci historycznych.

Kurs Dramaturgii Pawel Zapendowski 2022-04-13 Rewelacyjnym uczuciem jest napisać sztukę teatralną i zobaczyć ją na scenie w wykonaniu aktorów. Przeżyć chwilę, gdy reżyser i aktorzy, ludzie zwykle zapracowani, pełni ambicji i własnych pomysłów, spośród wielu sztuk starych, nowych i najnowszych wybierają tekst przez nas napisany. Nasz tekst! Śmieją się, wzruszają, zaczynają dyskutować o problemach w nim zawartych. Zastanawiają się jak go wystawić, jakie zaprojektować kostiumy, kto ma wystąpić w głównej roli, a kto w epizodach. Jak to osiągnąć? Cóż, nie jest to proste, lecz jest możliwe. Wystarczy pisać i uczyć się. Jeśli w osiągnięciu tej satysfakcji Kurs Dramaturgii okaże się użyteczny, satysfakcja będzie i moja. Kurs jest nastawiony na rozwiązywanie problemów - warsztatowego, artystycznego, ideowego, emocjonalnego. Porusza najważniejsze aspekty sztuki dramatopisarskiej: budowę dramatu, scen, rodzaje narracji, charakter bohatera, cel i motywację postaci scenicznej, język jakim się mówi, ideowe przesłanie tekstu. Zagadnienia są krótko omówione na przykładach z repertuaru dramatycznego i filmowego - od m.in. Hamleta Szekspira, Panny Julii Strindberga, Emigrantów Mrożka, Monologów waginy Enserl i Factory Bauersimy, po filmy lubiane, jak Testosteron, Amadeusz, Człowiek z marmuru. Omawiam również moje sztuki teatralne: Jestem jaka jestem, Jak z Almodovara, Trakl nieskończony i Leo Lipski Story - Miłość na Miodowej. Na końcu każdego rozdziału znajdują się zadania do wykonania. Niektóre z pozycji zalecanych do przeczytania dostępne są bezpłatnie w internecie, a część z nich można zamówić u wydawcy. Uczymy się przez całe życie. Nasza nauka pisania trwa praktycznie nieustannie przy pisaniu postów, mejli, artykułów, felietonów, książek, sztuk teatralnych i scenariuszy. Nieraz już na samym początku napotykamy na problem, który może zniechęcić do dalszej pracy Przychodzi mi na myśl skojarzenie z filmem Osiem i pół Federico Felliniego. O przygodach reżysera (w głównej roli wystąpił Marcello Mastroianni) przeżywającego kryzys. Ten film dowodzi, że i w

naszej historii jaką wymyślamy i zamierzamy przedstawić innym, wszystko może się wydarzyć, włącznie z kryzysem. Bohater przeżywa swój kryzys związany z wiekiem, zawodem, życiem prywatnym i rodzinnym, a dramaturg zmagają się z warsztatowymi problemami, jak tę historię opowiedzieć. W Kursie przedstawię zasady jakimi rządzi się dobra dramaturgia – pojawią się tzw. złote myśli, bez których nie ma warsztatu zawodowca. Będę czerpał z repertuaru dramaturgii oraz klasyki kina, jako że za dobrym filmem stoi zawsze dobry scenariusz, czyli to, co jest w branży na wagę złota.

North-East India: Land, People and Economy K.R. Dikshit 2013-10-21

North-East India, comprising the seven contiguous states around Assam, the principal state of the region, is a relatively unknown, yet very fascinating region. The forest clad peripheral mountains, home to indigenous peoples like the Nagas, Mizos and the Khasis, the densely populated Brahmaputra valley with its lush green tea gardens and the golden rice fields, the moderately populated hill regions and plateaus, and the sparsely inhabited Himalayas, form a unique mosaic of natural and cultural landscapes and human interactions, with unparalleled diversity. The book provides a glimpse into the region's past and gives a comprehensive picture of its physical environment, people, resources and its economy. The physical environment takes into account not only the structural base of the region, its physical characteristics and natural vegetation but also offers an impression of the region's biodiversity and the measures undertaken to preserve it. The people of the region, especially the indigenous population, inhabiting contrasting environments and speaking a variety of regional and local dialects, have received special attention, bringing into focus the role of migration that has influenced the traditional societies, for centuries. The book acquaints the readers with spatial distribution, life style and culture of the indigenous

people, outlining the unique features of each tribe. The economy of the region, depending originally on primitive farming and cottage industries, like silkworm rearing, but now greatly transformed with the emergence of modern industries, power resources and expanding trade, is reviewed based on authentic data and actual field observations. The epilogue, the last chapter in the book, summarizes the authors' perception of the region and its future.

of human development from the bestselling author of How to Create a Mind and The Singularity is Nearer who Bill Gates calls "the best person I know at predicting the future of artificial intelligence" For over three decades, Ray Kurzweil has been one of the most respected and provocative advocates of the role of technology in our future. In his classic The Age of Spiritual Machines, he argued that computers would soon rival the full range of human intelligence at its best. Now he examines the next step in this inexorable evolutionary process: the union of human and machine, in which the knowledge and skills embedded in our brains will be combined with the vastly greater capacity, speed, and knowledge-sharing ability of our creations.
